

Hawai'i Farm to School Hui

The mission of the Hawai'i Farm to School Hui is to strengthen Hawaii's statewide farm to school movement by supporting our island networks in the areas of capacity building, resource development and sharing, professional development, and policy development and advocacy.

CORE ELEMENTS OF **FARM to SCHOOL**

We envision a holistic education system that renews our relationship to food, farming, and the environment, improves health, and raises academic achievement. We envision Hawai'i as a center for agro-ecological education and food production and as a model of regenerative community food systems for the Pacific and the world. Our goals:

#1

Education

Establish, support, and sustain school learning gardens and 'āina-based education throughout the P-20 continuum.

#2

Agriculture & Food Access

Increase access to, and consumption of, locally grown or raised food in schools and early care and education (ECE) settings.

#3

Health

Strengthen the health of Hawaii's people, 'āina, and community food systems.

#4

Collective Impact

Build leadership and sustain the organization and efforts of the island networks and the Hawai'i Farm to School Hui.

HAWAI'I FARM TO SCHOOL HUI

LEARNING GARDENS AND SCHOOL FOOD SYSTEMS

Island Networks

Kauai School Garden Network (**KSGN**)

Oahu Farm to School Network (**OFSN**)
