Development
Foundation

With the rapid changes regarding COVID-19, it can be difficult to stay up to date with all that is happening in our islands. The Hawai'i Public Health Institute (HIPHI) will be offering a series of webinars on the impact of COVID-19 on our communities.

Join experts on children's education, health and wellness as they provide help and resources for those parents crisis schooling your keiki. Find out where to go for social and emotional support, and how best to support your children to cope with stress in a healthy way, as we prepare for what "the new normal" might look like for education.
