Q8

What steps do you think our state and/or counties should take to aid this recovery? Some examples could include how you think federal funds should be spent, diversifying the state's economy, etc.

Implement 72 hour testing before flying and standards temperature check and survey questions to reopen tourism.

Economic diversification takes a number of factors including but not limited to:

Lower cost of living/low cost fast housing

Lower energy cost

Clean safe environment

Business friendly government

Sea based inter- island transport (ferry system)

Commitment to tropical agricultural research and development (Brazilian model?)

Citizen based participation and empowerment.

What policies do you think the state and/or counties should enact to reduce tobacco and e-cigarette use?

Q12

Please indicate your position on the following policies:

Apply a tobacco tax to e-cigarettes, such as a percentage of the wholesale cost or taxing e-liquid by volume. **Support**

Prohibit the sale of all flavored tobacco products, including menthol cigarettes and flavored e-liquids. **Support**

Restrict online sales of e-cigarettes to tobacco retailers only, in order to curb illegal sales to minors. **Strongly Support**

Increase the tobacco tax on cigarettes to help smokers quit and prevent new users from starting. **Oppose**

Funds from the tobacco settlement and tobacco taxes should fund tobacco prevention and cessation efforts. **Support**

Q14

What steps do you think the state and/or counties should take to ensure food security for all of Hawaii's people, and to significantly increase food self-sufficiency for our state?

Hawaii as an isolated location needs to take a much more serious look at examples in other states and countries of how to deal with planning and development.

Brazil has gone from food importer to food secure and net exporter in about 20 years. Have we studied the agricultural system of this tropical nation?

Singapore on half the land of Oahu has a population five times the size and a household income 3000.00 per month higher. Have we looked hard at their formula for success to see where we can copy?

In 2019, Hawai'i made a commitment to adopt Vision Zero, an initiative to eliminate all traffic fatalities and severe injuries, while increasing safe, healthy, equitable mobility for all. What policies and infrastructure changes should the state and/or counties make to achieve this goal?

Q16

Please indicate your position on the following policies:

We must significantly increase public investment in food systems workforce development, including programs such as farm to school, agriculture and food systems education (PreK-12 and higher education), and farmer training programs. **Oppose**

The state should continue to invest in a Double Up Food Bucks program, which doubles the value of SNAP benefits when buying fresh, locally grown produce at participating retailers. **Oppose**

Enact a one-cent per-ounce fee on sugar-sweetened beverages. **Oppose**

Use revenue from a sugar-sweetened beverage fee for obesity prevention programs. **Oppose**

Make health and physical education (PE) courses a curriculum requirement, rather than an option, for middle school students. PE is currently a requirement for elementary and high school students. **Strongly Support**

Implement a red light camera program to deter red-light running and help curb traffic fatalities and injuries. **Strongly Support**

Page 8: Economic Justice

Q24

What are your immediate plans to help make Hawai'i more affordable for its residents?

Open the economy to market based solutions.

For instance:

The 2016 rejection of the purchase of HECO by NextEra caused the cancellation of the conversion of the power plants from oil to high energy lower cost natural gas.

This cancellations meant the One Hundred and Eleven Million Dollars a YEAR savings in lower energy cost was lost.

A chance to lower the cost of living and increase personal and family disposable income frittered away.

Why?

Q25

What is the role of government in addressing housing affordability issues and what would you do to encourage the production of more affordable homes for Hawai'i residents?

Modular pre-fabricated homes on the large areas of empty land outside of urban Honolulu.

Singapore style public/private residential high-rise development.

Transfer DHHL and OHA into a Native Hawaiian Corporation modeling after Native Alaskan Corporations to free native Hawaiian assets from government mismanagement.

Q26

Please indicate your position on the following policies:

Increase the state's minimum wage in a series of annual steps to a living wage of \$17 per hour. **Strongly Oppose**

Create a statewide Paid Family Leave Program, which would allow up to 12 weeks for employees to provide care for a newborn, bond with a new child, or care for a family member with a serious health condition. **Support**
