Q8

What steps do you think our state and/or counties should take to aid this recovery? Some examples could include how you think federal funds should be spent, diversifying the state's economy, etc.

We need to change the norm of how we need to be sustainable. Work programs and supporting our farmers from over populated animals from digging up crops from our fields. Protect what we have and build to be sustainable here in Hawaii for all. We are one community

Q9

Please share some of the efforts you have led or participated in response to COVID-19.

Volunteer for a program called Kupuna Kare. Helping with essential needs to our elders. Participate in food distribution around Maui to feed 1000's of families that are effected by this pandemic.

Q10

Additional thoughts/comments:

We need to come up with other alternatives for sources of income. We have people with great ideas but need the assistance in starting. More outreach to those who need help in starting. Definitely no new tax increases that will further the stress of families

Q12

Please indicate your position on the following policies:

- | | |
|---|-------------------------|
| Apply a tobacco tax to e-cigarettes, such as a percentage of the wholesale cost or taxing e-liquid by volume. | Strongly Support |
| Prohibit the sale of all flavored tobacco products, including menthol cigarettes and flavored e-liquids. | Strongly Support |
| Restrict online sales of e-cigarettes to tobacco retailers only, in order to curb illegal sales to minors. | Strongly Support |
| Increase the tobacco tax on cigarettes to help smokers quit and prevent new users from starting. | Strongly Support |
| Funds from the tobacco settlement and tobacco taxes should fund tobacco prevention and cessation efforts. | Support |

Q13

Additional thoughts/comments:

I have personally testified on this at our State Capital and work with youth on awareness to their peers

Q14

What steps do you think the state and/or counties should take to ensure food security for all of Hawaii's people, and to significantly increase food self-sufficiency for our state?

Support our Agriculture sector to protect crops and livestock and expand farming

Q15

In 2019, Hawai'i made a commitment to adopt Vision Zero, an initiative to eliminate all traffic fatalities and severe injuries, while increasing safe, healthy, equitable mobility for all. What policies and infrastructure changes should the state and/or counties make to achieve this goal?

Building more bike paths, development policies to prevent unnecessary accidents and deaths. I have also supported BILL 70 which was the right to tow. We need to get more policies that will deter bad decisions and save lives. We also have the speed factor and bad driving habits. I recommend higher fines

Q16

Please indicate your position on the following policies:

We must significantly increase public investment in food systems workforce development, including programs such as farm to school, agriculture and food systems education (PreK-12 and higher education), and farmer training programs.	Strongly Support
The state should continue to invest in a Double Up Food Bucks program, which doubles the value of SNAP benefits when buying fresh, locally grown produce at participating retailers.	Strongly Support
Enact a one-cent per-ounce fee on sugar-sweetened beverages.	Strongly Support
Use revenue from a sugar-sweetened beverage fee for obesity prevention programs.	Support
Make health and physical education (PE) courses a curriculum requirement, rather than an option, for middle school students. PE is currently a requirement for elementary and high school students.	Strongly Support
Implement a red light camera program to deter red-light running and help curb traffic fatalities and injuries.	Strongly Support

Q24

What are your immediate plans to help make Hawai'i more affordable for its residents?

Yes! We should have more incentives that will keep people in their homes for long term such as tax breaks. Pay higher taxes when you sell.

Q25

What is the role of government in addressing housing affordability issues and what would you do to encourage the production of more affordable homes for Hawai'i residents?

We are by far under our quota for home for our workforce community. Work with developers and programs to keep cost down and have a higher percentage of affordable verses market value

Q26

Please indicate your position on the following policies:

Increase the state's minimum wage in a series of annual steps to a living wage of \$17 per hour. **Oppose**

Create a statewide Paid Family Leave Program, which would allow up to 12 weeks for employees to provide care for a newborn, bond with a new child, or care for a family member with a serious health condition. **Support**

Q27

Additional thoughts/comments:

I have marked oppose to minimum pay scale due to the fact we are losing businesses in Hawaii due to our pandemic. I will not put the nail in this coffin.
