Page 9: Tobacco Regulations

**Q13**

Regulating e-cigarettes in the same manner as how the State regulates other tobacco products, through tax parity, licensing and permitting requirements, and restricting online sales to licensed sellers only, and not directly to consumers.

Position: **Support**

---

**Q14**

Ending, without exception, the sale of all tobacco products, such as cigarettes, cigars and e-cigarettes, that contain a characterizing flavor, such as menthol, fruit flavors, and candy flavors.

Position: **Support**

---

**Q15**

Authorizing counties to enact stricter restrictions on the sale of and access to tobacco products than what is provided at the state level.

Position: **Oppose**

---

**Q16**

Additional thoughts/comments

I support adult's right to use cigarettes or e cigarettes and don't believe the government should be restricting their use, but I understand we should not be enticing minors to use.

Position: **Strongly Support**

---

**Q21**

Additional thoughts/comments:

While I agree that there are many behaviors such as excessive consumption of sugar that contribute to illness, I don't believe the government should pick and choose which ones they want to punish with taxes and such.

Housing the regulatory structure of any legalized recreational cannabis program under Department of Health, rather than other agencies, such as the Department of Taxation.

---

**Q33**

Additional thoughts/comments

Once again, tax or fee on selected bad behaviors, not a good idea unless we place fees and taxes on all bad behavior. Crabby people should pay a fee!! No opinion on where to put the regulatory structure of recreational cannabis.
