Page 9: Tobacco Regulations

**Q13**

Regulating e-cigarettes in the same manner as how the State regulates other tobacco products, through tax parity, licensing and permitting requirements, and restricting online sales to licensed sellers only, and not directly to consumers.

Position: **Support**

---

**Q14**

Ending, without exception, the sale of all tobacco products, such as cigarettes, cigars and e-cigarettes, that contain a characterizing flavor, such as menthol, fruit flavors, and candy flavors.

Position: **Oppose**

---

**Q15**

Authorizing counties to enact stricter restrictions on the sale of and access to tobacco products than what is provided at the state level.

Position: **Support**

---

**Q16**

Additional thoughts/comments

Although I can't stand smoking or tobacco use myself, adults should be able to make their choices over their own bodies. I would support however increasing the taxes on these products to go towards cessation education and stronger enforcement of laws and regs on sellers and prohibitions thereof.

**Q21**

Additional thoughts/comments:

I was a co-cosponsor of Act 175 and worked with the primary author on expanding it to other state departments like the University and the Department of Defense

Page 13: Alcohol & Cannabis Regulations

**Q30**

Lowering the blood alcohol concentration (BAC) for impaired driving from .08 to .05 BAC.

---

**Q31**

Enacting a dime-per-drink fee on alcoholic beverages and using the revenue for community-driven health initiatives.

Additional thoughts/comments

I would support an alcohol surcharge if it were administered at the end consumer level only, so it doesn't pyramid. It is important to note that I don't drink any more except once in a blue moon at home in social setting with no more than two drink maximum.
