Additional thoughts/comments:

As a suggestion for making this survey stronger, I would ask candidates to rank priorities. This could be done as a budget allocation exercise. It's easy to spend resources when there are no constraints or consequences. If we were to fund or approve one of the proposals, what do you think would have the most impact?

I'd like to suggest a holistic, systemic solution: the village. Keiki + kūpuna friendly affordable housing communities - beach loving "houseless with infrastructure" communities as well.

Additional thoughts/comments

We should not be nickel and diming poor folks for "self-medicating" with alcohol. That is a tax on the poor. We should be addressing the root cause of drinking culture and provide sober friendly events and venues.
