Page 9: Tobacco Regulations

Q13

Regulating e-cigarettes in the same manner as how the State regulates other tobacco products, through tax parity, licensing and permitting requirements, and restricting online sales to licensed sellers only, and not directly to consumers.

Position: **Strongly Support**

Q14

Ending, without exception, the sale of all tobacco products, such as cigarettes, cigars and e-cigarettes, that contain a characterizing flavor, such as menthol, fruit flavors, and candy flavors.

Position: **Support**

Q15

Authorizing counties to enact stricter restrictions on the sale of and access to tobacco products than what is provided at the state level.

Position: **Oppose**

Q16

Additional thoughts/comments

Restrictions need to be consistent across the State. While I am running for a City Council seat and respect the autonomy of the individual counties, if we are to be successful in implementing restrictions, it needs to be consistent across the state. Variations (depending on which county you reside in) of the policy will be confusing.

Additional thoughts/comments:

I am opposed to the enactment of any taxes. Community-driven health initiatives is important and funds for these programs should be allocated as a line item from the general fund.

Q33

Additional thoughts/comments

I am opposed to the enactment of any new taxes. Community-driven health initiatives is important and funds for these programs should be allocated as a line item from the general fund.

Regulations of any legalized recreational cannabis program should fall under the taxing authority – which is the Department of Taxation
