We need to improve our priorities. Many living on fixed incomes they purchase less and less every year. It's a shame. Human beings #1 responsibility is to care for one another. It's a divine responsibility and obligation.

Page 9: Tobacco Regulations

Q13

Regulating e-cigarettes in the same manner as how the State regulates other tobacco products, through tax parity, licensing and permitting requirements, and restricting online sales to licensed sellers only, and not directly to consumers.

Position: **Support**

Q14

Ending, without exception, the sale of all tobacco products, such as cigarettes, cigars and e-cigarettes, that contain a characterizing flavor, such as menthol, fruit flavors, and candy flavors.

Position: **Support**

Q15

Authorizing counties to enact stricter restrictions on the sale of and access to tobacco products than what is provided at the state level.

Position: **Support**

Q16

Additional thoughts/comments

E-cigarettes are disgusting for people within hundreds of feet of the smoker. Even driving down the H-1 I put up my windows from e-smoke several cars ahead of me. The only reason I allow is because they actually help with craving and with quitting.

Position: **Strongly Support**

Q21

Additional thoughts/comments:

My number one campaign slogan is, Food is Freedom. We need to make growing food part of every school year. Every home should have 2 and more 4x8 food boxes for growing vegetables. Needs to be 70% not 30. We need to start replacing grass with gardens. The state and counties will set up developing, planting, gardening, composting, harvesting, processing, preserving assistance programs and warehouse centers receiving, processing, preserving, storing and distributing. The state agricultural budget last year was one-third of one-percent. Need to be increased. Food is Freedom! and Food is Survival!!

Additional thoughts/comments

One of my goals and proposals is a universal health program. I know families that only insure one person. This is a shame.

Additional thoughts/comments

We have the capability to do this things but we do not want to spend the money. Lives seem at times not to matter. Anothe shame.

Position **Strongly Support**

Q33

Additional thoughts/comments

First of all, Do not drink at all and drive. I support recreation cannabis and and taxation. The mainland cannibis users have always considered Hawai'i cannibes to be of premium quality drawing a premium price. Need strong regulations for driving high but overall I believe it is much healthier than alcohol, especially when used in non-smoking forms. It's now legal in Washington, Oregon and California and I do not believe this has caused problems. Most of the problems arise from it being illegal. Legalizing cannabis can make it safer to grow and use.
