Q12
Additional thoughts/comments:

Perhaps if I knew the specifics of each proposal, my opinion would change. However, in general I oppose the state's increasing expenditures without reductions elsewhere. The budget must be truly balanced.

Page 9: Tobacco Regulations

Q13

Regulating e-cigarettes in the same manner as how the State regulates other tobacco products, through tax parity, licensing and permitting requirements, and restricting online sales to licensed sellers only, and not directly to consumers.

Position: **Oppose**

Q14

Ending, without exception, the sale of all tobacco products, such as cigarettes, cigars and e-cigarettes, that contain a characterizing flavor, such as menthol, fruit flavors, and candy flavors.

Position: **Strongly Oppose**

Q15

Authorizing counties to enact stricter restrictions on the sale of and access to tobacco products than what is provided at the state level.

Position: **Support**

Q16

Additional thoughts/comments

Try as it may, the government does not make a good parent.

Page 10: Healthy Eating and Active Living

Q17

Setting Safe Routes to School (SRTS) program benchmarks and decreasing barriers to SRTS programming through the creation of an SRTS Advisory Council within the Department of Transportation.

Position: **Oppose**

Position: **Support**

Q20

Increasing state investment for implementation of the Hawai'i Farm to School Program (Act 175, 2021), including meeting the goal of 30% local school food within the Hawai'i Department of Education by 2030.

Position: **Strongly Support**

Q21

Additional thoughts/comments:

May change my view if I knew more about what the proposals entailed.

Q27

Establishing a licensing process for Community Health Workers.

Position: **Oppose**

Q28

Incorporating Community Health Workers as a profession into Medicaid services and contracts with the State of Hawai'i.

Position: **Support**

Q29

Additional thoughts/comments

May change my opinion if I knew more of the details, but in general the state is involved in redundant licensing processes.

Page 13: Alcohol & Cannabis Regulations

Q30

Lowering the blood alcohol concentration (BAC) for impaired driving from .08 to .05 BAC.

Q31

Q32

Housing the regulatory structure of any legalized recreational cannabis program under Department of Health, rather than other agencies, such as the Department of Taxation.

Position **Support**

Q33

Additional thoughts/comments

Lowering BAC will not get drunk drivers off the road. The government already has too many taxes/fees. Why do we have to regulate legalized pakalolo? Just make it legal.
