Q13

Regulating e-cigarettes in the same manner as how the State regulates other tobacco products, through tax parity, licensing and permitting requirements, and restricting online sales to licensed sellers only, and not directly to consumers.

Position: **Strongly Support**

Q14

Ending, without exception, the sale of all tobacco products, such as cigarettes, cigars and e-cigarettes, that contain a characterizing flavor, such as menthol, fruit flavors, and candy flavors.

Position: **Strongly Support**

Q15

Authorizing counties to enact stricter restrictions on the sale of and access to tobacco products than what is provided at the state level.

Position: **Oppose**

Q16

Additional thoughts/comments

I oppose allowing counties to impose stricter restrictions because I think it would be confusing and frustrating for people to follow. Also enforcement would be legally difficult to enforce. The laws should be uniformly strict throughout the state.

Q30

Lowering the blood alcohol concentration (BAC) for impaired driving from .08 to .05 BAC.

Position **Support**

Q31

Enacting a dime-per-drink fee on alcoholic beverages and using the revenue for community-driven health initiatives.

Position **Strongly Oppose**

Q32

Housing the regulatory structure of any legalized recreational cannabis program under Department of Health, rather than other agencies, such as the Department of Taxation.

Position **Strongly Support**

Q33

Additional thoughts/comments

I strongly support legalizing recreational cannabis. Lowering the BAC to .5 is bold and I support it in principle, however I think perhaps lowering it to .6 and then lowering the enhanced penalty to .12 (down from .15) might be a more pragmatic approach. Great ideas!
