Page 9: Tobacco Regulations

Q13

Regulating e-cigarettes in the same manner as how the State regulates other tobacco products, through tax parity, licensing and permitting requirements, and restricting online sales to licensed sellers only, and not directly to consumers.

Position: **Strongly Support**

Q14

Ending, without exception, the sale of all tobacco products, such as cigarettes, cigars and e-cigarettes, that contain a characterizing flavor, such as menthol, fruit flavors, and candy flavors.

Position: **Oppose**

Q15

Authorizing counties to enact stricter restrictions on the sale of and access to tobacco products than what is provided at the state level.

Position: **Strongly Support**

Q16

Additional thoughts/comments

Because we live in a free country, we cannot out right ban tobacco products. What we can do is increase the protection for people who choose not to use tobacco products. I would like to see a ban on smoking in all condominium complexes and multi unit housing complexes. If you do choose to smoke needs to be a designated area that will not harm people who choose not to.

Position: **Strongly Support**

Q21

Additional thoughts/comments:

I strongly feel that we need to start growing our own food for schools. This is one area if elected that we will try our best to facilitate

Q33

Additional thoughts/comments

While I support DUI initiatives I am opposed to the legalization of recreational marijuana. I feel that it should stay medical because it has proven to help people with certain health conditions.
