Q21

Additional thoughts/comments:

For sugar-sweetened beverages fee, I have some concerns that this is basically a regressive tax that at the same time won't be enough to effect any behavior change. So it's basically just revenue generation on the backs of mostly low and moderate income earners. Also, we've seen time and again that the creation of new special funds doesn't guarantee sustained increases program budgets. So id rather focus on progressive changes to our tax system and prioritization of funding health programs with general funds.

Q25

Additional thoughts/comments

Don't know much about the oral health division at doh or why funds were cut so I need to learn more. For student loans I support this but of course we don't have the authority to forgive federal or private loans, only state.

Housing the regulatory structure of any legalized recreational cannabis program under Department of Health, rather than other agencies, such as the Department of Taxation.

Q33

Additional thoughts/comments

Similar concerns re: per drink fee that I have about the sugar-sweetened beverages fees. For legalized recreational cannabis, I don't know. Need to learn more about pros and cons of different regulatory structures
