Additional thoughts/comments

Generally support the concept, however I share the concerns that many advocates have raised about how such a certification and licensing process would be implemented, and whether the certification/licensing process would inadvertently box out some existing CHWs.

Lowering the blood alcohol concentration (BAC) for impaired driving from .08 to .05 BAC.

Position **Support**

**Q31**

**Q33**

Additional thoughts/comments

As Council District 6 has many bars and restaurants, I'd need to consult with them about the impact of the dime-a-drink fee. The County has already asked a lot from bars and restaurants that have increased their cost of business, e.g. replacing styrofoam containers, etc., and another imposition may be challenging even though the fees would be directly passed onto consumers.
